Power-Trust

3in1 AC/AC POWER SOURCE

Frequency Converter, Voltage Regulator and Voltage Stabilizer

Power-Trust Series is not equipped with any transformer and is available as standard only in TS version [three-phase input single-phase output] with a Voltage regulation function limited between 2Vac and 300Vac. Power-Trust upsides over Power-Boost:

- Lighter
- Higher full load efficiency (>96% vs >93%)
- Better heat dissipation

Power-Trust, as much as Power-Boost can cover a wide arrange of applications such as household appliances, automotive test benches, electric motors, automation, electronics, medical equipment, lighting, maritime, aviation, power grid, industry and many more.

AT A GLANCE:

- Not equipped with transformer

Phases working mode:

- o SS [1-phase input and output]
- o TS [3-phase input 1-phase output]
- Standard Available Power:
 - o SS [1.5kVA - 3kVA – 5kVA - 7.5 kVA]
 - o TS [10kVA - 17.5kVA – 25 kVA]
- 3 Upgrade Packages available [Basic, Deluxe, Premium]
- Mechanical:
 - o Rack 19" 3U available on SS family. It comes with removable handles so that it can be used as Desk Box as well. Housing powder coated in MCB blue navy colour
 - o Rack 19" 6U only on TS family
 - o Mini Tower
- Control Panels:
 - o LCD Display 2 x 16 along with potentiometer on Rack 19" on SS Model Basic Package
 - o LCD Display 4 x 40 along with command buttons on all the SS models in Deluxe and Premium packages as well as on all the Mini Towers in any package
 - o 2 x LED strings along with command buttons on the Rack 19" 6U (only on TS models)
 - o LCD 7" touch screen [optional on Premium packages]
- Communication Interfaces (Remote Control):
 - o Physical Interfaces: RS-232, Ethernet, 12 poles I/O
 - o Communication protocols: SCPI (over RS-232 and Ethernet), 0-10Vdc (over analog I/O 12 poles), ASCII with optional SCPI adapter (only on Rack 19" TS models)
 - o LabView Drivers

STANDARD FEATURES

- Voltage Regulation [max output = V_{input} value - 4Vac]
- Frequency regulation [40-80Hz]
- Setup of the max Current value
- Cos ϕ and Frequency values visualization

POSSIBLE CUSTOMISATIONS

- Different Frequency input range
- Different Frequency output range [up to 400Hz]
- Device adaption to Current generator up to the nominal Current
- Device adaption to ST working mode [1-phase input 3-phase output]

Some of the deployed Special Applications

Avionics

Marine & Offshore

Automotive

Household Appliances

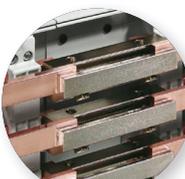

Certification and Regulatory Labs

Electric Motor Testing

Drones

Industry

Military

Burners

Power-Boost

Power-Trust

Unlike the Power-Boost, the Power-Trust is not equipped with any transformer and it's available just in SS and TS versions (1-phase/1-phase and 1-phase/3-phase)
